

Hello

Dr. Steve Mehler
DVM, DACVS

Dr. Mehler has worked as assistant professor of surgery and interventional radiology at Michigan State University. He has extensive experience in the development of medical devices and interventional procedures for companion animals, wound healing products, and the formulation and development of nutritional and nutraceuticals for numerous conditions in dogs and cats. He is an internationally recognized lecturer, publisher, researcher, and has traveled the world training veterinarians in the practice of surgery.

Your pet's
experience
matters to us.
Your experience
matters to us.

We specialize in all aspects of cardiology and soft tissue, orthopedic, and neurologic surgery. The MLVS technicians have been hand selected because of their broad knowledge in medicine, surgery, anesthesia, pain management and patient care. With years of experience and a team of pet-loving professionals, you can count on us!

What is a Veterinary Surgeon?

A veterinary surgeon has undergone vigorous training after veterinary school in order to become a specialist. Dr. Mehler is a Diplomate of the American College of Veterinary Surgeons. He is a graduate of the College of Veterinary Medicine at Michigan State University. Upon graduation, he completed a one-year internship and a three-year surgical residency in surgery at the University of Pennsylvania. Dr. Mehler and the MLVS team strive to provide a variety of surgical, diagnostic and management options that are tailored to you and your pet's specific needs.
